

Arecont Vision and Genetec Announce Omnicast[®] 4.0 Support for Arecont Vision MegaVideo[®] IP Cameras

Tuesday, April 10, 2007

Arecont Vision 5.0, 3.0, 2.0, 1.3 Megapixel and Dual-Sensor 3.0/1.3 Megapixel IP Cameras Are Now Supported by Genetec, the Pioneer in IP Video Surveillance Solutions and Market Leader within the Physical Security Industry.

ALTADENA, Calif.--Arecont Vision and Genetec announce that Arecont Vision megapixel IP cameras, including the unique AV3130 dual-sensor DayNight[™] camera, are supported by Genetec Omnicast 4.0, enterprise security solution that provides unified management of security video, audio and data via IP networks. This support enables users worldwide to utilize Arecont Vision cameras with the Genetec's internationally acclaimed IP security solutions.

"Arecont Vision is pleased to announce this integration with the widely implemented IP video surveillance solution from Genetec. The combination of high-performance Arecont Vision megapixel cameras with the extremely scalable Omnicast technology has already proven to be very effective on a city-wide scale. The result of this integration is the HDTV video surveillance platform that is an ideal upgrade path for a wide range of homeland security and enterprise-level applications", said Steven Sarfati, Senior VP of Sales at Arecont Vision.

"The video image quality provided by Arecont Vision megapixel IP cameras is exceptional. The integration with Arecont Vision Megapixel cameras is inline with Genetec's philosophy of offering its clientele the freedom to choose the hardware platform that best fits their security needs. We strongly believe the integration of Arecont Vision product line brings added value to our Omnicast solution." says Michel Chalouhi, Director of Product Management.

About Genetec

Genetec Inc., incorporated in 1997, is recognized as a pioneer in IP video surveillance and a technology leader within the physical security industry. With headquarters in Montreal and offices located in Europe, the Middle East, East Asia and the United States, Genetec provides a complete line of innovative IP security products globally. Genetec's success is built on its dynamic team of highly skilled individuals dedicated to the development of tomorrow's cutting edge security technologies and its commitment to customer care. Thousands of organizations worldwide trust Genetec's solutions to safeguard their assets and personnel.

About Arecont Vision

Arecont Vision is the leading manufacturer of high-performance HDTV IP cameras and associated software. Arecont Vision products are made in the USA and feature proprietary low-cost massively parallel image processing architectures MegaVideo[®] and SurroundVideo[®] that represent a drastic departure from traditional analog and network camera designs. These innovative technologies enable Arecont Vision to deliver multi-megapixel digital video at analog camera price points.

Arecont Vision product line includes the 5, 3, 2 and 1.3 megapixel models as well as unique high-performance multi-sensor cameras that drastically reduce the user cost per unit area under surveillance. These 8 megapixel quad-sensor 180° and 360° panoramic cameras, AV8360 and AV8180, feature proprietary SurroundVideo[®] technology and deliver 24 times the resolution of the best analog surveillance cameras. In addition, AV3130, the world's fastest dual-sensor DayNight[™] network camera, offers crystal clear imagery down to starlight conditions of 0.01 lux.
