

Leading the Way in Megapixel Video™

June 12, 2017

Dear Arecont Vision Customer,

Arecont Vision megapixel cameras are “Made in the USA” and may be treated as a domestic end product for purposes of the *Buy American Act* (41 U.S.C. §§ 8301-305). Arecont Vision cameras are also *FTC Made in USA* compliant, and the company is a registered US Federal Contractor.

Arecont Vision is a USA based company. Engineering, product development, final assembly, quality assurance, quality control, and support are located at our facilities in Glendale, Los Angeles County, California.

### **Compliant Products**

#### **Cameras:**

- *MegaBall®, MegaDome®, MegaVideo®, MegaView®, MicroDome®, and SurroundVideo® cameras are 51-65% United States origin, depending on the mix of electronics, optics and mechanical hardware, and qualify as Made in the USA.*

#### **Camera Components:**

- **PCB Assembly Labor:** *All electronics sold in our cameras contain 100% United States assembly labor by virtue of their assembly in the state of California and programming at our headquarters in Glendale, California.*
- **Final Assembly Labor:** *All final assembly is 100% United States assembly labor by virtue of final camera assembly being performed at our headquarters and manufacturing facilities in Glendale, California.*
- **Research & Development:** *All hardware research, digital design, firmware design, and development work is 100% performed in the United States at our headquarters, development, and manufacturing facilities in Glendale, California.*

### **Non-compliant Products**

#### **Cameras:**

- *MicroBullet® is based on Arecont Vision’s US-developed design and architecture, but is assembled outside the United States.*

#### **Accessories:**

- *All stand-alone housings, mounts, and lenses are 100% of foreign origin.*

For additional information or a complete listing of the models contained within the above series of products, please contact me.

Sincerely,

  
Brad Donaldson  
Vice President, Product Development
